The economic and ecologically friendly solution to extend the life of your yacht finish

Our products are proven in the world's hardest environments.

Make cleaning easier and more efficient

See and feel the difference

The ShineYachts team combines unrivalled expertise across polymer nanotechnology and hi-performance protective coatings for paint , gel coat, stainless steel, marble , glass and teak .

ShineYachts services are supporting yachtowners, captains and their yachts worldwide, with many leading yachts now relying on our expertise to maintain the quality of their yacht's finish.

In partnership with yacht painters *All Spray*, we have developed **Fusion Finish** an advanced dual-system finishing process that combines paint and paint protection in one process and is designed to outperform any other system of finishing.

We believe in perfection and maintain a unique devotion to the quality of our products and unrivalled first class service.

Our Unique Product Range

iShine therapy

Use any combination of iShine® rubbing compounds (N° 1, N° 2 or N° 3) to restore colour to it's original lustre, and finish with the two-step protective coating process (N° 4 Polymer Sealant, then N° 5 Nanotechnology Topcoat) to give your paintwork a brand new protective finish and ultra hardwearing and long lasting shine.

iShine therapy products are available in 200ml, 500ml and 1,000ml bottles.

iShine Shampoo

iShine Boat Shampoo is based on the newest technology and is specifically designed for daily yacht & boat care. It's pH-neutral formula is suitable for all paint types, gel coats, metals, varnished and wooden surfaces. Polymer protection leaves a water repellent surface and a long lasting gloss & shine.

iShine Boat Shampoo is available in 2 litre and 5 litre bottles.

iShine SiO2

The iShine SiO2 system is a permanent nano surface protection for glass, plastic, lacquered surfaces and stainless steel based on the latest nanotechnology.

SiO2 high UV-stability, chemical and abrasion resistance, a strong hydrophobicity and excellent easy-clean performance. The product is invisible to the human eye (coating thickness: 100-150nm) and very resistant to temperature changes. Available in 100ml bottles.

iShine Pads & Tools

iShine Foam Pad 165mm/135mm/80mm
heavy orange + medium white + soft black

iShine Back Up Pad
150mm/125mm/78mm

Reduce your
maintenance costs

High performance treatments for
paint gel coat, stainless steel, glass,
teak and marble surfaces

Worldwide
service,
with more th
10 years
experience.
